Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	Stage 1	Stage 2	Stage 3
Actions <i>What does the customer do?</i>	- Receives flood warning. - Checks water level updates. - Looks for safety information.	- Contacts emergency service. - Moves family to a safe place. - Follows evacuation instructions.	- Returns home safely. - Reports damages. - Gives feedback on the service.
Touchpoint <i>What part of the service do they interact with?</i>	- Mobile App - SMS Alerts - Social Media	- Emergency Helpline - Rescue Team - Local Authorities	- Support Center - Insurance Office - Feedback Portal
Customer Thought <i>What is the customer thinking?</i>	"Is my family safe?" "How serious is the flood?" "What should I do?"	"I need help quickly." "Where is the nearest shelter?" "Will rescue arrive on time?"	"Can I recover my losses?" "The service helped me." "How can future floods be prevented?"
Customer Feeling <i>What is the customer feeling?</i>	Worried / Anxious	Fearful but Hopeful	Relieved and Thankful
Process Ownership <i>Who is in the lead on this?</i>	 - Weather Department - Disaster Management Team - Admin	- Emergency Response Team - Police & Fire Department - Rescue Volunteers	- Local Government - Relief & Rehabilitation Team - Customer Support Team
Opportunities <i>How can we improve this stage?</i>	- Send faster realtime alerts. - Improve alert accuracy. - Support multiple languages.	- Reduce emergency response time. - Provide live shelter locations. - Enable one-tap SOS feature.	- Speed up damage assessment. - Provide faster relief assistance. - Collect customer feedback for improvements.
